Welcome to the Signs Now Schools Catalogue

We hope this will be a useful tool if you are thinking about the signs for your school. Signs Now UK has been a leading supplier of signs to schools and colleges for many years.

We're proud of our industry leading reputation. This is why we offer:

▶ Free site surveys

Most signs are unique. In this catalogue we are showing you the more popular standard signs, but we can supply any sign you require. Just give us a call and we will come and visit you.

▶ Quality service

Signs Now operates a reliable detailed Quality System which is accredited for ISO 9001, and a robust and effective Environmental Management System which is accredited for ISO 14001.

▶ Trained fitting crews

Signs Now employs its own fitting crews around the country. We have the experience, the insurance, and the health and safety training to give you peace of mind.

▶ Guarantees

We guarantee all our permanent signs for a minimum period of 5 years – sometimes longer. We guarantee that we will not be beaten on price for a like-for-like quotation.

▶ Competitive prices

Our group purchasing power makes us one of the most competitive suppliers in the industry.

▶ Insurance

As a national professional supplier, we carry public and product liability insurance up to £10m, as you would expect from a responsible contractor.

▶ Award winning quality

In 2016 we were proud to be awarded the Sign Project of the Year by the British Sign Association.

**International Sign
Association UK**

There are many reasons to choose Signs Now...

- 1 A full in-house service from design through to installation.
- 2 We advise on artwork and supply proofs prior to production.
- 3 We can come to your school and assess your requirements.
- 4 We are fully insured to carry out the type of work we do.
- 5 We operate a rigorous health and safety system to protect your pupils, staff and visitors.
- 6 We have the purchasing power of a large sign group.
- 7 Our environment management system is ISO 14001 certified.
- 8 Our quality system is ISO 9001 certified.
- 9 Signs Now carries the product and public liability insurance you would expect of a national company.

...and we are **Sign Business of the year!**

All you need to do

- ▶ Choose the sign you want and take note of the page number.
- ▶ Call us on **0845 9000 409** if you need help, or contact your local Signs Now branch.
- ▶ Fax, email or telephone your order through to us.

Leave the rest to us

- ▶ We will call you to discuss your enquiry.
- ▶ We can organise a time for installation to suit you - maybe during a school holiday. If you need the signs quickly we can offer you a rapid turnaround.
- ▶ We design your signs and supply proofs for your approval.
- ▶ We will then manufacture your signage in-house.

Sign Safety Checks for your peace of mind

Great care has to be taken with the installation and maintenance of signs. Children may bump into a sign on the ground, they may cut a finger on a sign on the wall, or a sign could fall from a height. We can visit your premises and carry out a safety check of your signage.

06 Wall Signs

Box Tray Signs

Our Box Tray wall signs are 40mm deep aluminium faced signs with graphics applied to the face and returns/sides. They are very neat, being fixed through the top & bottom returns, thus no visible face fixings. They come in a variety of sizes or bespoke to suit your buildings.

Graphics are laminated prints as standard, or can have a tough anti-graffiti film applied for extra protection.

Signs can be supplied in any style you require. They can be a large main sign or a smaller door or block sign.

Box Tray signs can be fixed to most walls, fences or gates.

Flat Signs

This is the simplest form of a wall sign being made up of flat aluminium faced panels, face fixed, using graphics of your choice.

Signs can be supplied with rounded corners for safety.

Graphics can be tailored to suit your school. Panels are easy to drill and fix.

Individual crests or logos can be incorporated.

On large sites we can incorporate your school location map.

Delta Deluxe

Our new Delta Deluxe range of aluminium post and panel signs is ideal for creating a stylish, professional first impression. As the D-shape posts are located either side of the panel, an additional message can be added to the rear of the sign. This comes with a coloured panel & posts. If you do not want coloured posts then please see our Delta Standard sign.

With our deluxe range, both the panel and posts can be powder coated to a standard RAL colour.

Entrance sign incorporating branding and directional information.

All graphics can be covered with an anti-graffiti film for extra protection.

Main entrance sign with full branding.

12 Post & Panel

Delta Deluxe

Because the panels slot into the posts, the back of the sign is neat and can be used as a double-sided sign.

Panels can be illuminated with a trough light.

18 Case Study

Port Regis School

Back in July 2016 an enquiry came from Port Regis where they were very keen to renew their old signs. Several meetings took place with our surveyors and Port Regis Marketing team to ensure the design and artwork were of a high quality.

The final signs included a huge number of Delta Deluxe Post and Panels, Deluxe wall signs, and finger post signs. The signs were installed by our fitting crews over the summer holidays and the results are very impressive.

"The signs are looking great so thank you for all your hard work."

Printed Wallpaper & Graphics

We can take your photos or artwork and can print this onto a self adhesive wallpaper and apply to suitable internal walls. Wall Art is a superb way of brightening up school corridors with eye catching images.

Transform and brighten up your internal walls with durable digitally printed wallpaper. Our wallpaper can either be applied directly to your walls or applied to panels before being fixed to walls. Artwork could be drawings produced by your children or just decorative or inspiring images or photographs.

We can produce almost any letters and logos to be fixed directly onto your buildings. We can supply in a variety of colours, sizes and materials.

This popular range of signs comprises a set of two-dimensional letters cut out from a sheet of material. We take your design and cut out the material on a CNC Router. The material could be dibond, acrylic, aluminium or Perspex. The material can be coloured to your requirements.

We can make letters to any size – shown here to cover a three storey building.

Dear Jerry

I felt compelled to write this letter because of how impressed I was with your level of service during our initial planning meetings. Your expertise in the matter was well received and very useful to the signs that needed to be created for our 3 sites.

I was also impressed with the speed at which the signs were designed, how fast changes were made when we wanted adjustments as well as how quickly installation could be arranged. You are a testament to this business Jerry!

As if it could not get any better, the 2 gentlemen that came to do the installations, Nial and Matt, were absolutely amazing. I cannot commend them enough. They were so amicable and very open to a layout change at the very last minute. They worked ALL day with no breaks and only left us for their return journey to Bristol at 7pm that evening. The signs were installed to a very high standard and it is only 10am this morning and we have already received many compliments about the signs!

I am just so delighted at the professional and friendly service we have received from yourself Jerry as well as Nial and Matt. Thank you so very much for such an amazing experience...who knew signs could be so much fun!! I will absolutely recommend you to as many people as will listen to me!

Please pass my thanks to Nial and Matt

Multi-coloured letters to create an eye catching entrance.

We'll find a way to create any individual logo.

Brushed silver letters.

Any logo or crest can be supplied.

28 Individual Building Letters & Logos - Flat Cut

This is our top-of-the range signage and it looks very stylish. The letters are 3 dimensional and usually made of stainless steel. We take your design and use our Letter Bender to shape the letters to your exact font and graphics. The letters can be inserted with LED lighting to provide a spectacular 'halo lit' effect.

30 Fascia Signs

For larger wall signs we can supply the ideal solution. Our fascia signs can be made to any size, complete with fixings and durable laminated graphics.

Our premium fascia sign is a 40mm deep aluminium box that is fixed through the top and bottom edges, so there are no unsightly face fixings.

Effective signs to mark buildings or blocks throughout a campus.

The simplest form of a fascia sign is a flat aluminium sign. Again these are easy to fix, and allow for whatever graphics you require.

Our fence and railing signs are made from an aluminium faced material and are made to fix to any fence or set of railings. If you already have existing metal posts in good condition, then we may be able to supply you replacement signs to go on them - just tell us the size of the posts.

Panels can be easily drilled and fixed to fencing.

Crests and logos can be supplied and fixed to railings.

We have a range of clips to suit different diameter railings.

Signs are safely fixed to railings with stainless steel clips.

If we know the diameter of your existing posts then we can supply replacement panels.

Here you can see the rails and mini clips for railings.

32 Finger Posts

Deluxe

Finger post signs are the ideal way to guide pupils and visitors around your site. Each post can have up to six lockable anti-tamper directional fingers and are fully rotational to suit your needs.

Our aluminium finger post directional signs come in a variety of sizes to suit the needs of each location. One post can hold a single directional finger or several, depending on your needs. All posts can have the addition of a finial on top of the post.

Trailers to complete the look.

Anything from a single mini bus up to a fleet.

For a dramatic effect, a whole vehicle can be wrapped.

Banners

Our superb range of exterior PVC banners has nylon reinforcement and all come with brass eyelets or sleeves for fixing.

Banners can simply be cable tied to railings or fences.

Banners can be made to fit any location.

Banners of any size can be made, and all are digitally printed on state of the art printers.

36 Education Bespoke Signs

In addition to the signs seen so far, we can design and produce almost any type of bespoke signs you can imagine.

From stainless steel and acrylic reception signs in multiple languages to giant curved monolith entrance signs, we can help. Call us to arrange a visit to discuss.

38 Bespoke Signs

Signs Now can work with your school to produce a wide range of innovative signage. When we say we can make any sign you can imagine – you can see that we do.

Very modern stainless steel logo – entirely designed and fabricated in-house.

3 dimensional logo installed in the centre of the atrium entrance.

Large scale vinyl graphics applied around a sports building.

The graphics look spectacular at night when the lights come on.

Little Stoke Primary School

Background

Little Stoke Primary School contacted Signs Now Bristol Branch back in June 2016. They wanted to brighten up their school with a variety of signs.

After a site survey was completed, samples shown and artwork developed to meet the needs of the school, the order was confirmed.

Little Stoke Primary Schools signs were transformed from a basic post and panel to a Monocurve at the entrance of the school, flat cut letters on the wall of the school and several deluxe wall signs and standard wall signs within the school grounds attached to walls and gates.

Results

Little Stoke Primary School said they were delighted with the new signage! Signs Now advice, customer service and installation were all excellent and the turnaround time from placing the original order to installation was very quick.

"The signage is of a high quality and greatly enhances the frontage of the school. We would thoroughly recommend Signs Now to other schools."

Business Manager

Our top 5 tips

- 1 What is the message you wish to communicate? Keep it simple and graphic.
- 2 Where do you want to locate the sign? Where it can be seen, where it does not cause an obstruction.
- 3 Please see our charts for standard and common sizes.
- 4 Is there a risk of physical damage to your signs? We can advise best materials and other protection such as antigraffiti to suit your needs.
- 5 Do your signs need illumination, internally or externally? We have a range of lighting solutions.

Installing the Sign

We can supply the sign to you for installation by your own staff, or we can send you an installation quotation and take care of everything for you.

How we work with you

- 1 Read this user guide and select the sign(s) you want.
- 2 Contact Signs Now by email or telephone for a price and for any other information you require.
- 3 If necessary we will carry out a site survey before providing you with a written quotation.
- 4 If happy, you confirm your order (by post, fax, or email).
- 5 Tell us what you want to appear on the sign.
- 6 We will provide you with colour artwork to approve or amend until you are completely happy.
- 7 Once you approve the sign we make it.
- 8 We ship the sign to you or, if required, we will fit the sign for you.
